Many parents are hesitant to use scripture memory with their children or don't know where to start. We have found that even our two year olds could memorize the above verses...and over 40 of them at a time! Don't underestimate your child's ability to hide God's word in their heart! The above list includes the verses our kids have memorized. We try to use a translation that makes it easy for them to remember and understand. Many of these verses are used in training and discipline as well.

"You shall teach them diligently to your children, and shall talk of them when you sit in your house, when you walk by the way, when you lie down, and when you rise up." -Deuteronomy 6:7
